The Committee analysed the flow of international tourists to India from different regions/countries. It recommended the closure of some offices because the flow of tourists from the countries under the purview of these offices is not significant and the expenditure being incurred on these offices is not commensurate with the advantages offered by them. It recommended that marketing and promotional activities in these countries could be undertaken through alternative methods and techniques thereby reducing the non-plan expenditure of the Department on account of these offices. This recommendation was considered and accepted.
